Product: Alu-folie 20200, 20300, 20600, 121200 and 20450

Eligibility for food contact

We Aspelin Group, declare under our sole responsibility that our alu-folie articles are made of appropriate materials and are in conformity with the following reports, standards, and regulations.

We confirm that all products are suitable for food contact in accordance with Article 1 of the Framework Regulation (EC) 1935/2004.

The articles supplied comply with the requirements of following legal regulations and standards:

- Framework Regulation 1935/2004/EC on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC.
- BS EN 602 Aluminium and aluminium alloys. Wrought products. Chemical composition of semi-finished products for the fabrication of articles for use in contact with foodstuff.
- French decree 27th August 1987: Aluminium and alloys
- Warenwetregeling Verpakkingen en gebruiksartikelen. Hoofdstuk III
- EC 1907/2006 and amendments. Reach
- Directive 94/62/EC on Packaging and packaging waste
- Quality: ISO 9001 by Lloyd's
- Hygiene: BRC Packaging Hygiene Standards including HACCP by Lloyd's
- Environment: ISO 14001 by Lloyd's

We hereby declare that the material or the article is suitable for direct contact with dry, moist and fatty foodstuffs:

Aqueous foodstuffs: Yes, 10 days at 40°C
Foodstuffs very rich in fatty content: Yes, 10 days at 40°C-oliveoil

The specific migration is determined. The sample was brought in contact with several simulants, the worst case for each simulant was selected. The specific migrations were determined following the CEN method EN 13130-1:2004 (26 May 2004) as close as possible.

The material is suited for direct use with foodstuffs using the following temperature-time lapse.

>22°C	Unlimited time in minutes, hours or days
< 300°C	Unlimited time in minutes, hours or days

The contact between the aluminium foil and foods which are very acidic or very salty should be avoided, since they have a detrimental effect on the aluminium layer. It should be stored in a dry place with a constant temperature.

The product has been manufactured under G.M.P Regulation (EC) N°2023/2006.

We have implemented a traceability system as requested from Art. 17 Regulation (EC) N°1935/2004 via the number on the box/number on core in conjunction with the date of production.

Disclaimer

The information contained herein is based upon data believed to be up-to-date and correct at the time of writing. It is based on our approved materials suppliers' information and declarations. It is provided for our customers and /or contractors to be able to comply with all applicable health and safety laws, regulations and orders. Customers are under an obligation to carry out a risk assessment under relevant Good Manufacturing Practices (GMP) in line with EU food contact legislation, and thus take adequate risk management measures to protect food consumers.

Since the application, conditions of use and methods of use are beyond our control, the information provided does not represent a guarantee of any kind for the properties or conformity of the product. The product's performance and its suitability for the Customer's purpose, depend on the conditions of use and the materials used. We recommend that Customers satisfy themselves that each product meets their requirements in all respect before commencing the production or use of the products in concern. There is no implied guarantee of merchantability or fitness for purpose of the product or products described herein. The information contained herein relates exclusively to our products when used properly and not used in conjunction with any third-party materials.
